Beyond YOUR Bar Podcast is a professionally produced, fully virtual interview show now in its **fifth season, with more than 160 episodes**. Guests join us from across the United States and beyond. The conversation is relaxed and unhurried, giving guests the freedom to talk about what matters to them. No gotchas. No agenda. Just genuine interest in the person behind the public story. Guests tell us it is the interview they actually enjoyed, and many return for a second conversation.

THE GUEST EXPERIENCE

- Recorded remotely in our private virtual studio. Sessions typically run 45 to 60 minutes and are scheduled around the guest.
- Before Denisa joins, Michael and the production team check the guest's camera, sound, lighting, connection, and seating angle. They explain the flow and make sure the guest feels comfortable.
- The production team stays throughout the recording, quietly managing everything behind the scenes.
- Professionally edited, with shareable clips provided to the guest and their team.
- **Honorariums are available for select bookings by arrangement.**

The feedback is consistent: the rare interview guests actually enjoy, and come back for.
